ABOUT

Carlotta started skiing at the age of five in Biellmonte, in the heart of Oasi Zegna in the Italian Alps. She now competes in FIS races, specializing in the technical disciplines of slalom and giant slalom.

She currently trains full-time at Apex 2100 International Ski Academy, combining year-round, high-volume on-snow training with a structured strength and conditioning program, while pursuing the IB Diploma Programme at Apex 2100.

Her goal is to compete for an NCAA program in the United States, where she can continue developing as an alpine ski racer at the highest level while pursuing a university degree.
